Architectural by design, yet soft around the edges, this channel-tufted bed makes a dramatic impact in a pebble gray billiard cloth fabric. Clean lines are accentuated by Sepia trim, warmly framing the headboard and surrounding platform base. A rounded ledge at the foot of the bed is perfect for sitting when slipping off your shoes and getting dressed. For added drama, fully upholstered wing panels let you extend the headboard on either side. Sold as a set, right and left wing panels are available to purchase separately.
