m011-016-411

COLLECTION: MODERN UPTOWN

**DIMENSIONS:** 26W x 14D x 22H

Small stone and metal tables are the most versatile pieces in any room. A beautiful piece of Silver Travertine graces the top of this rectangular side table. Perfect for an urban loft or paired to contemporize a more traditional environment, the veins of this stone give off a natural wood-like appearance. The travertine sits on a warm Jazzy Taupe metal base that has an architectural grill-like frame. This piece is authentically modern with its geometric appearance.
