Bold. Iconic. Uncomplicated. When it comes to commanding attention, this bed has no rival. Its svelte modern shape is underscored by a rich Cerused Oak finish and lined with a metal rail in Bronze Metallic Paint outlining the top of both the headboard and footboard. Handsomely finished siderails in Cerused Oak add continuity while the beds' bottom frame provides a geometric element and is accentuated by a Bronze Metallic Paint finish. With a slightly curved profile, this exceptional bed draws inspiration from the dramatic peak of a wave right before it folds into itself.
