THE MERIDIEN DINING TABLE

sig-418-205

COLLECTION: Signature Urban

DIMENSIONS: 63 dia x 29.5H

Designer José Leite de Castro credits his accomplished team of craftsmen for the intricate artistry that has given rise to this bold dining room table. Imparting the presence of a Mid-century Modern sculpture, this beautiful table offers a masterful mix of refined materials—including striking Ebony Macassar, gleaming Urban Black lacquer and Urban Brass. The curvilinear shape of the table's base is painstakingly inset with thick, handcrafted bars of curving solid brass. For a crisp, timeless look its architectural base is crowned with a glass top. Surround this bold table with the soft curves of our Olav Dining Chairs and enjoy time well-spent lingering with friends after dinner!
